WOODLEAF
4 BEDROOMS
4 BATHS
2 HALF BATHS
3545 SQFT

With its glorified farmhouse vibe, The Woodleaf brings the best of Napa to South Carolina. As you enter, the feeling is welcoming and carefree, with an oversized great room, breakfast room and dining room – as casual or formal as you choose – with its own porch.

The full-featured chef's kitchen, with a handsome seated island and on-trend cabinetry, leads to a covered porch for near-year-round outdoor living. An eight-foot privacy wall is a conversation piece, with unique cypress post and framing surrounding corrugated steel.

The presence of two collapsible glass walls transforms the first-floor into a flexible space responsive to changing mood or changing weather. Upstairs, three additional bedrooms, a spacious loft and balcony provide relatives or guests a full share of relaxed privacy.

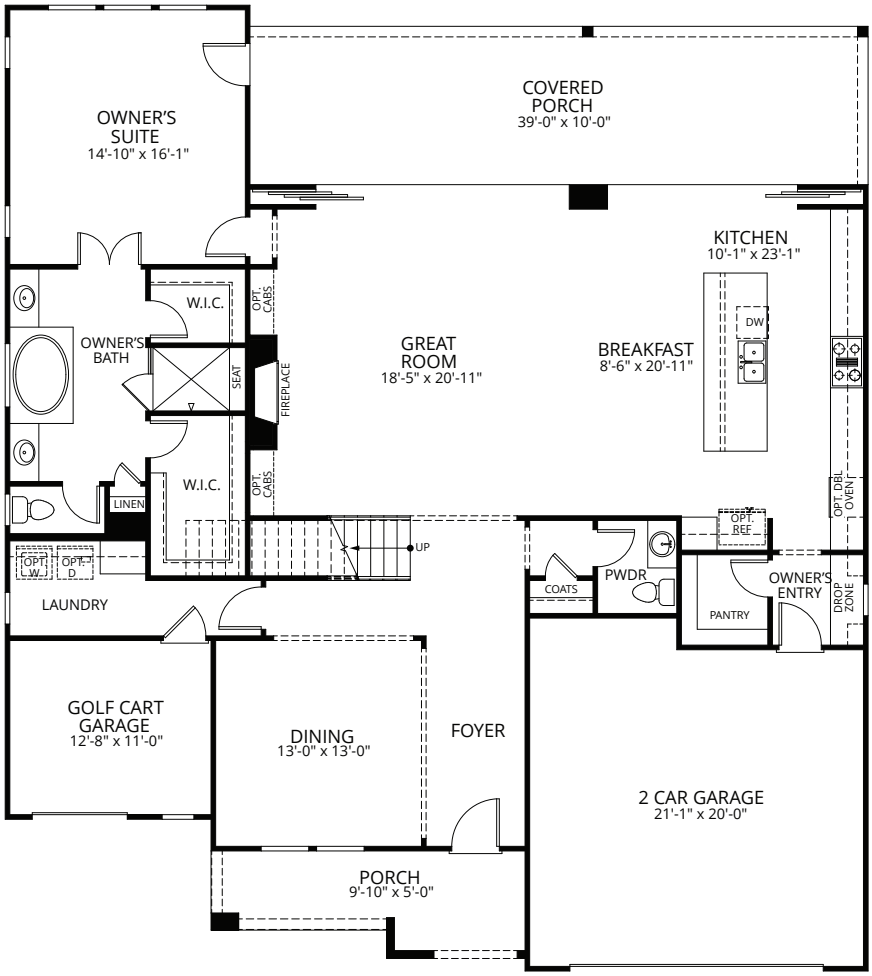

The Woodleaf can be customized with options including a casita (a self-contained guest suite), pool, outdoor fireplace, additional balcony and office.
